

USDFI COOKIES POLICY

Last updated May 23, 2022

The usdfi.com website ("Website") uses Cookies. Cookies are intended to personalize the Website for your visit and to improve the use of the Website. Cookies are small text files that the Website transmits to the cookie file of the Internet browser on your device and stores it there for later retrieval so that you are recognized when the Website is re-visited. A cookie typically includes the name of the domain from which the cookie originates, the "lifetime" of the cookie, and a unique identifier.

In particular, this Website uses the cookie of Google Analytics which collects information and reports website usage statistics without personally identifying individual visitors to Google. By using this Website, you consent to the use of statistic cookies. You can also decide not to provide the Website with this information if you wish, with no impact on your experience of the Website. To opt out of being tracked by Google Analytics, you need to adjust your web browser accordingly. The information generated by the cookie about your use of our Website is normally transferred to a server of Google in the USA and saved there. Google may also transfer this information to third parties insofar as this is a legal requirement or if third parties are commissioned to process this data on Google's behalf (see Google's Privacy Policy at <https://policies.google.com/privacy>). Please note that Google and these third parties may be based in jurisdictions which do offer a different level of data protection than Saint Kitts and Nevis.

This Website uses the following types of Cookies:

Session Cookies. Temporary cookies that remain in the cookie file of the browser until you leave the Website. Session cookies are required for you to use the Website and, if necessary, to register or place orders. Session cookies are deleted at the end of the browser session.

Persistent cookies. Persistent cookies remain in the cookie file of the browser for a longer period of time. The duration depends on the lifetime of the cookie. Persistent cookies allow the Website to remember the choices you made (e.g., user's registration data, the language selected, or the region in which you are located).

Web Beacons. Web Beacons are electronic signs (also called "Clear GIFs" or "Web Bugs") that allow the Website to count the number of users who have visited the site.

If you do not want to accept cookies or web beacons, you can refuse them and deny access to previously stored information by setting your web browser accordingly. The settings within the browser that allow you to do so vary from browser to browser.

If this Website uses cookies and thereby collects and processes your personal data, the processing is necessary to protect its legitimate interests. This Website pursues the legitimate interests to personalize this Website for your visit and to facilitate the use of this Website.

The Website reserves the right to modify this Policy or its Terms at discretion. Any updated version of this Policy will be effective immediately upon the posting of the revised Policy unless otherwise specified.
